

# Tesloach ker

## Full Stack Developer

I'm Tesloach, a full stack web developer with experience in building scalable and robust web applications.

tesloachkerchan@gmail.com

0939063697

Addis Ababa, Ethiopia

## EDUCATION

### Software Engineering

Arba Minch University

10/2019 - Present

CGPA: 3.75

#### Courses

- Web Desing and Programming
- Software Engineering
- Java
- C++

## WORK EXPERIENCE/PERSONAL PROJECTS

### Travel Booking Mern Stact

Self-Project

07/2023 - 10/2023

#### Achievements/Tasks

- Successfully conceptualized, designed, and developed a comprehensive travel booking management system from scratch.
- Utilized React.js, Node.js, and MongoDB to build a robust and scalable application, ensuring high performance and user-friendly interfaces.
- Developed a solid foundation in React.js, leveraging its component-based architecture and state management capabilities to create efficient and maintainable code.
- Leveraged Node.js to build a server-side application, enabling seamless communication between the front-end and back-end components.
- Utilized MongoDB as the database system, gaining proficiency in designing schemas, performing CRUD operations, and ensuring data integrity.

### Ecommerce

Self-Project

10/2023 - 12/2023

#### Achievements/Tasks

- Successfully designed and developed a full-fledged e-commerce platform with a user-friendly frontend and a robust backend.
- Utilized HTML, CSS, and JavaScript (JS) to create an engaging and responsive user interface, ensuring an intuitive shopping experience for customers.
- Leveraged the power of Node.js and MongoDB to build a scalable and efficient backend system that handles the core functionality of the e-commerce.
